

ROME, ITALY
12-15 JUNE 2023

PRESS RELEASE

2023

27TH EDITION

The major International Conference & Exhibition on Electricity Distribution

WHAT IS CIRED?

CIRED, the **Leading Forum where the Electricity Distribution Community meets**, holds the major International Electricity Conference & Exhibition every two years in different venues in Europe with a **worldwide perspective** and participation.

CIRED works for the purpose of increasing the business relevant competencies, skills and knowledge of those who see themselves as a part of the **electricity distribution community**, whether they are from the utility, product, consultancy, service, business or academic sector.

CIRED is dedicated to the design, construction and operation of **public distribution systems** and of **large installations** using electrical energy in industry, services and transport.

CIRED covers

- the whole field of Electricity Distribution Systems and associated services, including dispersed and embedded generation issues;
- the technical aspects of Electricity Supply;
- related aspects such as cost reduction, environment, organisation, and skills.

The 2023 event will take place in **Rome**, located in the heart of Italy on **12-15 June 2023**.

Participation in CIRED 2023 offers an opportunity to meet with up to **2500 experts** from **60 countries** and benefits from face-to-face interaction with **key decision leaders** in the field of Electricity Distribution.

An exhibition gathering over **140 companies** will be running throughout the conference.

CIREN 2023

CIREN 2023 in **Rome** (12th to 15th June 2023)

The 27th **International Conference & Exhibition** on Electricity Distribution (CIREN) organized by the “Alumni Association of the Montefiore Institute” (AIM) will be held in Italy’s capital city Rome. Located in the heart of Italy, this event taking place from **June 12th** until **June 15th** 2023 is being staged at **La Nuvola**, one of Italy’s most iconic leading international Conference and Exhibition venues.

CIREN 2023 conference and exhibition will be held in the Eternal City of Rome. It is the **third most visited** city in Europe and is very well connected with its two international airports.

CIREN 2023 is expected to attract some **2,500 experts** from over **60 countries** that will thereby offer all participants the opportunity to meet and benefit from face-to-face interaction with the key decision leaders in the field of electricity distribution.

THE 27TH EDITION

CIREN is coming **back to Italy!**

The first CIREN Conference was organised about **50 years ago** in Belgium. The event has travelled to **Europe**, making stops in France, the Netherlands, Spain, Italy, Germany, and many more countries.

The last conference organised in Italy was held in **2005** in Turin. Our 27th edition is coming back to Italy after 18 years and is a **unique opportunity** that cannot be missed.

THE TECHNICAL PROGRAM

Three full days of technical presentations and discussions covering the very latest **challenges** and issues facing electricity distribution today and in the future, including:

- **Main sessions** with extended presentations of papers by selected authors
- **Internationally recognised keynote speakers** of the distribution industry
- Lively **panel discussions** and **round-tables** with the industry's current experts
- Structured and attractive **poster sessions**, with pre-arranged **guided tours** → your opportunity for in-depth discussion with presenting authors
- **International industry exhibition** with leading global companies → your chance to get a view of the technology of the future
- **Research and Innovation Forums (RIFs)** → your first chance to hear and discuss what could affect your industry's future

This exciting programme will be completed with:

- An **opening forum** with high level keynotes and debate on topical challenges
- **Pre-conference tutorial sessions** to update your knowledge on the latest developments linked to electricity distribution
- A selected programme of stimulating **technical visits**

The 6 **CIRED Technical Sessions**:

Session 1 - Network Components

Session 2 - Power Quality & Electromagnetic Compatibility

Session 3 - Operation

Session 4 - Protection, Control and Automation

Session 5 - Planning of Power Distribution Systems

Session 6 - Customers, Regulation, DSO Business & Risk Management

CONFERENCE FORMAT

12 June Tutorials & Opening Forum						
	Main Sessions		RTs & RIFs		Poster Sessions	
13 June	Session 1	Session 3			Session 4	Session 5
			RIF S 2
