Reviewing of papers for CIRED 2023

All papers submitted to CIRED 2023 are peer-reviewed in two phases:

- Abstract submission (deadline: 14 September 2022)
- Full paper submission (deadline: 23 January 2023)

The reviewers include the CIRED Technical Committee in position prior to and during the conference as well as experts that are members of the each Session's Advisory Group. If any, the National or Liaison Committee of the author's country also reviews the papers.

These reviews are all taken into account when considering the acceptance of a paper.
